## Build #556 Update

## **Build Update**

NOTE: It's important to ensure that when performing any ATRF-CS updates that:

- ATRF-CS is not running during the update,
- All update files are downloaded from the ATRF-CS site manually and that the update files are run from within the folder where ATRF-CS is installed to,
- AutoUpdate.exe is run as an Administrator.

Open the folder where ATRF-CS has been installed (C:\Program Files (x86)\ATRF\ATRFCS in many cases.) Open a web browser and browse to <u>http://atrfcs.atrf.com</u> Download the **ATRF-CS Update Utility** and **Current ATRF-CS Build** and place into the open folder.

ATRF-CS Software Downloads

Download the ATRF-CS Server Installation Package here.

Download the ATRF-CS Workstation Installation Package here.

Download the ATRF-CS Update Utility here.

Download the Current ATRF-CS Build here.

Download the Current ATRF-CS Rate File here.

Download TeamViewer 6 here.

NOTE: If your browser does not prompt you for where to save the files, you will need to manually copy **AutoUpdate.exe** and **CS\_Update\_556.trf** into the open folder.

Right click on *AutoUpdate.exe* and select *Run as administrator*.

Computer > Local Disk (C	:) ▶ F	Program Files (x86) 🕨 ATRF 🕨 ATRFCS 🗆	>	✓ 4→ Search ATR	FCS
